FillMyRefills App

Download the ~~FillMyRefills~~ app on your iPhone or Android device.
FillMyRefills 2.0

Once the app launches, search for your pharmacy by using the phone number and the zip code.

On the next screen, click on left navigation pane to show more information for the Pharmacy, sign in or create an account.

To create a new account, the process is same as creating on web browser. Once the account is created you will receive a security code on your mobile number and a verification email.

Once the account is verified, similar to the web browser, when you login to the app for the first time, it will send a security code on your mobile number to register the device. Please check the box "Remember Device" for save it for future use.

Once you are logged in, on the home page you can view your profile information, number of prescription available for refill and your prescription history. Tap on "# Prescription to Refill" to view details of the prescriptions.

On the next screen, select the Rx's and tap on "Refill".

Ready for Refill = There will only checkboxes by prescriptions with refills.

If your prescription does not have a checkbox, it may need refills.
You can text (208)266-4497 with the prescriptions that need refills or call (208)621-4963.
